Regional Offices

Lustenau, Feldkirchen bei Graz, Hallein, Innsbruck, Linz, Villach

About Drei

Hutchison Drei Austria GmbH is a 100% subsidiary of CK Hutchison Holdings Limited (Hong Kong) and part of the 3Group Europe's division "3Scandinavia & Austria". By the end of December 2023, Drei achieved a total revenue of 976 million euros. As a leading Austrian telecommunication provider the company offers mobile communication, internet, fixed line, TV and business solutions from a single source. In addition to the biggest network of branded stores by an Austrian telecommunications provider and an encompassing customer service for residential and business customers, Drei pursues the goal of making digitalization available and affordable for everyone in Austria. As part of the largest investment project in the company's history, Drei is currently building a completely new network. Austria's most modern 5G network already reaches around 90% of Austrian households and companies. Since autumn 2022, Drei has been the only company in Austria to operate a nationwide 5G standalone network with full 5G potential, including network slicing for secure capacities, minimal latency times and maximum data security. With its Fix tariffs, Drei is the first provider to offer mobile internet with a bandwidth and an easy switch to fiber optics.
